AI-POWERED TAKEDOWNS FOR PARTNERS

Deliver autonomous takedowns under your brand.

Add AI-powered phishing and impersonation takedowns to your managed security services. White-label portal, multi-tenant management, and real-time case tracking—all without building anything yourself.

0 HEADCOUNT REQUIRED

Add takedown services without hiring specialists.

Your SOC team focuses on threats. We handle removals.

White-Label Portal

Your brand, your domain. Customers never see Sentrike.

Multi-Tenant Management

Manage all customers from one dashboard. Separate usage, quotas, and histories.

Real-Time Case Tracking

Live status for every takedown, visible to customers in your branded portal.

Sentrike

How it works for your customers.

One workflow. Multiple customers. Full automation.

REPORT → VERIFIED REMOVAL

FOR YOUR BUSINESS

New revenue stream. Add takedowns to your service catalog without R&D investment.

Differentiation. Offer capabilities competitors can't match.

Scalability. Handle any volume without adding headcount.

FOR YOUR CUSTOMERS

Faster protection. Threats neutralized in hours, not weeks.

Transparency. Real-time status tracking in your branded portal.

Compliance-ready. Evidence logs and audit trails for every case.

WHAT YOUR CUSTOMERS GET

✓ **Phishing takedowns**	Fake login pages removed
✓ **Brand impersonation**	Fake domains & profiles
✓ **Browser protection**	Safe Browsing in minutes
✓ **Evidence collection**	Screenshots, WHOIS, timeline
✓ **24/7 monitoring**	Tracked until removed

INTEGRATION OPTIONS

Embed Widget
`One-line iframe · Quick setup · Customer-facing`

White-Label Portal
`Your domain · Your branding · Multi-tenant`

REST API
`Full control · Custom builds · Webhooks`

Expand your managed security services.

Add AI-powered takedowns to your portfolio without building anything. We handle the automation. You keep the customer relationship.
